Arrow Industrial Supply is a distributor of over 70,000+ items. We are not a manufacturer of any of the products we distribute. All of our products are purchased from manufacturers, distributors and importers. Conformance to IFI specification is formally requested from all of our suppliers. Our business is limited to the marketing and distribution of all the products we sell. We do not alter in any products.

On Thru-Hardened fasteners, we make available certifications upon request. Keep in mind that when parts are mixed together in storage bins of any type, identifying lot numbers of a specific fastener is impossible. If a customer needs to keep the lot numbers and certification available, then it is up the end user to make arrangements for the proper storage of said products so no mixture is possible. It is also up to the end user to keep proper records of where each part is used, location, installation procedures, and lot numbers of said fasteners.

Arrow Industrial Supply and related companies are not responsible for any critical application errors that may result in any type of failure, personal injury or damages.

Material Safety Data Sheets are available on all chemical based products upon request.
